- This course is open to people of all ages and all parishes.

Goals

- To help participants acquire greater familiarity with St. Paul and the major themes of his teaching.
- To deepen participants' faith by helping them more fully appropriate what the Holy Spirit inspired St. Paul to write.
- To help participants understand more clearly the challenges faced by the early Church through St. Paul's eyes, and find guidance for helping us respond to the challenges the Church faces today.
- For those who do not regularly read the Bible on their own, to remove any sense of intimidation from reading the sacred text and to encourage, inspire and assist them to feel confident in doing so.
